Dear (contact name):

Did you know that there are more than 105,000 people in the U.S. currently waiting for a life-saving organ transplant? Every day 18 people will die because not enough organs are available for transplant. In addition, hundreds of thousands of people could benefit from the gift of tissue and eye donations.

Recently, I joined Donate Life Wisconsin's Workplace Partnership for Life campaign. Donate Life Wisconsin is a statewide coalition of people who work in the field of organ, eye and tissue transplantation and donation. They taught me the latest facts and figures regarding organ, tissue and eye donation. Donation is truly the gift of life, and I am now personally motivated to be part of Wisconsin's goal to increase the number of people in our state who have shared their intent to be an organ, tissue or eye donor.

On behalf of (name of workplace), I joined other area businesses and committed our efforts to the statewide goal by joining the national *Workplace Partnership for Life* campaign. This campaign, asks only one thing of us as campaign partners: to educate employees about organ, tissue and eye donation and encourage them to share their intent to be a donor.

Please join my efforts. By educating those in your workplace, your associates in the community and your friends and family, you can help spread this message and literally **save lives**. To learn more about the campaign, visit the web sites listed on the attached contact sheet. Additionally, Donate Life Wisconsin members are happy to offer their assistance and resource materials. Their contact information, and more facts about donation, is available at donatelifewisconsin.org.

Please join us in this important effort to save lives by educating your employees.

Sincerely,
